## EXPERIENCE

---

### Deloitte Analyst

September 2024-Present

- Gained hands-on experience in Completed hands-on training in Azure Integration Services, including Logic Apps, Function Apps, API Management (APIM), Service Bus, and Azure Data Factory.
- Developed an Azure Function App with CRUD operations, implemented Dependency Injection, and wrote XUnit test cases to ensure code quality.
- Built and managed CI/CD pipelines using Azure DevOps YAML, integrating tools like SonarCloud, Snyk, and Gitleaks for code quality and security.
- Created a full-stack banking application using ReactJS, Spring Boot, and MySQL, demonstrating end-to-end development skills.
- Proficient in Git, GitHub, and Azure Repos for version control and collaborative development..

### Hackup Technologies

---

### Web Penetration Tester Trainee

December 2023 – January 2024

- Worked with ethical hacking tools for performing vulnerability assessments on web applications.
- Gained hands-on experience with Linux commands and environments for security and development tasks.

## EDUCATION

---

Sri Ramakrishna Engineering College  
B TECH. Information Technology (CGPA : 8.11)  
Specialization in Cyber Security (CGPA:9.45)

Coimbatore  
May 2024  
Nov 2024

## SKILLS

---

**Programming Language:** Python, C#.

**Tools:** Azure, Visual Studio 2022

**Devops Tools:** Azure devops

**Tech OS:** Linux, Windows

## CERTIFICATIONS

---

- Azure devops for beginners
- **HTML, CSS, Bootstrap**
- **Introduction to Javascript**

## PROJECTS

### Azure Integration / Azure Devops

Jun 2024 – July 2024

- Developed an **Azure Function App** with HTTP triggers to perform **CRUD operations**, using **Dependency Injection** and writing **XUnit test cases** for validation.

- Created a **CI/CD pipeline** in **Azure DevOps** using **YAML**, integrating tools like **SonarCloud**, **Snyk**, and **Gitleaks** for code quality and security scanning.
